## WHAT WE DO

Finance Growth is a leading investment provider to financial market professionals. Our technical strategies cover forex, binary options and real estate. Our market depth and knowledge are attributed to our acquired experience on trading floors of many banking institutions.

Our organisation exists purely to support the people we trade with – the world's more disadvantaged investors. We believe that investment, if organised and regulated properly, can lift the world's poor out of poverty. At Finance Growth, we push ourselves daily to a limit of breaking point while enjoying ourselves while making profits. Finance Growth is a registered organization that offers private membership to individuals who wish to invest into real estate, oil and gold, CFDs on stocks, ETFs and agriculture.

### Collaborative

Managing wealth responsibly takes collaboration: with each client, among colleagues and with professional partners. What matters is not who's best but what's best for our clients.

### Resilient

We are not afraid to ask difficult questions or make changes that need to be made. We stand up for what's right, accepting that this can be challenging sometimes.

### Professional

We take our professional responsibilities seriously. We are accountable for what we do: to our clients, to each other and to the future.

# How we Work

## Loan

Getting a loan doesn't have to be intimidating, with the right lender it can be a simple process. You only need a lender committed to taking the mystery out of the mortgage loan process! At Finance Growth, we understand! Our investors want simple facts, honest answers and competitive products.

Finance Growth automatically offers loan services to investors with over \$5,000 investment in our normal Finance Growth packages. Investors over \$5,000 are entitled to loans of \$20,000-1million dollars yearly with 5% paid monthly, or the investor could wish to compound the interest till the time limit, provided all required information and identity of the investor are duly confirmed by the Finance Growth loan board. Every investor above \$10,000 is provided with a personal account manager and the investor has a direct communication with the manager in order to see that our loan offers are secured.

## More about us.

We power success across the financial world for individuals and institutions through unique insights, thinking and actions. Our investment professionals are well positioned to search for differentiated investment ideas, to uncover the story within the story, the hidden risks and the potential rewards:

Most importantly, the glue that holds all of this together is our culture.

We believe it is the sustainable competitive advantage of our firm, helping us to attract, retain, develop, and motivate great people.

The shared values of our culture include integrity, collegiality, learning, humility, a sense of humor, respect for diversity of thought, and an unyielding focus on our clients.

## THE REVOLUTION IN ASSET INVESTMENTS MANAGEMENT

We offer our investors access to high-growth investment opportunities in the financial markets through the utility of state-of-the-art technical facilities and the implementation of industry standard cryptocurrency trading strategies.

We're proud to be an asset management company whose culture is driven by strong values and a long-term vision. At elitexrealty.com Investments, our vision, mission and core values serve as the catalyst in our relations with our clients, employees, shareholders and in the communities in which we live and work. They are our guiding compass in our business each day.

## OUR INVESTMENT PHILOSOPHY

We will maintain a consistent decision making process within the organization and invest responsibly as a major investment firm. By looking for market inefficiencies, we determine the gap between the optimal price and the current market price of the asset, and produce excess revenue. We look for investment opportunities through intensive research, analysis and insight.

# Gold Mining

Gold mining is a global business with operations on every continent, except Antarctica, and gold is extracted from mines of widely varying types and scale.

Mines and gold mining operations have become increasingly geographically diverse, far removed from the concentrated supply of four decades or so ago when the vast majority of the world's gold came from South Africa.

China was the largest gold producer in the world in 2016, accounting for around 14% of total annual production. But no one region dominates. Asia as a whole produces 23% of all newly-mined gold. Central and South America produce around 17% of the total, with North America supplying around 16%. Around 19% of production comes from Africa and 14% from the CIS region. See our interactive gold mining map for gold production per country in 2019.

Overall levels of mine production have grown significantly over the last decade, although substantial new discoveries are increasingly rare and production levels are increasingly constrained.

Gold mining and mine production does not respond quickly to prices. The project development timeline and mine lifecycle is a very long one – it often takes decades to move from discovery to production.

# Real Estate

Finance Growth offers investment options in most major cities for multi-family, office, retail and hospitality properties. The platform gives investors the opportunity to invest as little as \$100,000 in a project.

As an investor, you will receive frequent project updates and financial statements to keep investors informed of the current state of their holdings. The company only partners with experienced developers that have a track record of success, invests in properties in locations with high growth potential, offers investments in major markets with solid fundamentals to avoid potential bubbles and invests in projects that will improve neighborhoods, eventually boosting the properties' overall value. The company offers investors several different asset classes to choose from, including high-rise buildings in Manhattan or single family homes in Phoenix.

The platform is hoping to bridge the gap between project sponsors and the developers behind each project. Once an investment is 100% funded, it usually takes two to three weeks for the property to close and the investors to start accruing a return on their investment.

## EVERYONE DESERVES A PEACE OF MIND

Invest on Our Retirement Plan today and Enjoy a good old age

For employers, defined contribution retirement plans represent freedom from financial volatility, traditional pension risk, market volatility, and long-term financial uncertainty; however, they also impose new risks and responsibilities on the employer. For employees, defined contributions offer individual control, greater flexibility, and, in an ideal world, access to institutionally priced investments. Secure the future of your finance even after you retire.

# OIL AND GAS

Investors looking for portfolio diversification through sector-specific funds can find multiple opportunities within the energy industry – and more specifically, companies operating in the oil and gas drilling sector. It is necessary to analyze certain metrics to understand a company's level of profitability and make informed investment decisions. One of the measures commonly used to determine a company's profitability is the profit margin.

## Calculating Profit Margin

Investors can analyze a company's profit margin or net profit margin by completing a simple calculation that determines revenues. The profit margin of a company is determined by subtracting total expenses from total sales and then dividing that number by total company sales. This profit margin calculation does not take into account common stock dividends, but does include depreciation, taxes and interest expenses. A company's net profit margin is calculated similarly by subtracting total expenses from total revenue (not sales) and then dividing that number by total revenue. This gives investors deeper insight into how a company is converting its bottom line revenue into profit for shareholders.

## Oil and Gas Drilling Profit Margin

As of January 2015, the average net profit margin for the oil and gas drilling industry is 6.1%. The industry average takes into account the profit margins of a number of large-, mid- and small-cap companies, including Diamond Offshore Drilling, Inc (NYSE: DO) with a net profit margin of 7.23, Helmerich & Payne, Inc (NYSE: HP) with a net profit margin of 17.12 and PostRock Energy Corporation (NASDAQ: PSTR) with a net profit margin of 28.16.
